## SELECTMEN'S REPORT

Last year in our report we wrote that during 1965 the amount of local property taxes required to be raised from the people of the Town had reached a new record of almost \$400,000, an increase of \$40,000, or 11 per cent, over the preceding year. That record did not last long, for in 1966 the corresponding amount was \$488,491, an increase of \$88,969, or 22 per cent, over the previous year's record. The following summary indicates the distribution of this total tax bill between town, school and county purposes for the last two years:

	1965	1966	Increase	
			Amount	Percent
Town Purposes	\$60,902	\$63,335	\$2,433	3.8
School Purposes	309,816	390,316	80,500	26.0
County Purposes	25,478	28,353	2,875	11.3
Overlay	3,326	6,487	3,161	95.0
Total	\$399,522	\$488,491	\$88,969	22.2

Since the Selectmen are required by law to raise property taxes from local taxpayers according to the relative market value of their taxable property, we have a heavy responsibility to see that property valuations for assessment purposes are as accurate as possible. Prior to 1966, assessments in Hopkinton, as in many other towns, were traditionally at some fixed fraction of the Selectmen's appraisal of the full market value of taxable property. Although with accurate appraisals and uniform application of such a standard proportionality factor, this kind of system results in exactly the same distribution of the tax burden among taxpayers as a 100 percent assessment does (excluding the effect of veterans exemptions), the proportional method is certainly harder for the average taxpayer to understand. In recent years, the Tax Commission has urged the Towns to shift over to a one hundred percent basis, and this

year the Selectmen completed such a change. We believe that a one hundred percent basis of assessment will perhaps be somewhat easier for town officers to administer in the future than the old proportional method, and we feel sure that the Townspeople will prefer it since it is so much easier to judge the accuracy of one's own assessment and to compare it with the assessments placed upon other properties.

At the time that the Selectmen were taking the final step in shifting the Town to a one hundred percent level of assessments this year, we felt it wise to make a complete review of all of our tax valuations. With the cooperation of a representative of the State Tax Commission, Mr. Wallace Jones (who formerly lived in Hopkinton), we developed a detailed "Property Information Card" providing for complete factual information concerning the major points which govern the market value of property, and particularly of residential property. These cards were issued to each taxpayer to be completed and returned with their usual inventory forms last spring. Most taxpayers cooperated well in this project, and many were extremely diligent in doing so. Others unfortunately, did not. Those who did, however, made a substantial contribution to the reassessment project. The Selectmen plan to continue this Property Information Card project this year until we have a complete set of cards for all taxable property in town which can thereafter be kept up-to-date as a continuing permanent part of our assessment records. Such a file will certainly be an invaluable aid to future boards of selectmen in striving to maintain a fair and accurate system of assessments.

The total assessment placed upon all taxable property in town in 1966 was about \$17,900,000. This was an increase of about \$900,000, or five percent, over the corresponding equalized full value figure for the preceding year, and follows a corresponding increase in

1965 over 1964 of about \$1,160,000. A part of these annual increases has been accounted for by new construction, but a very large part has resulted from individual adjustments by the Selectmen of assessments which had gradually come to be unfairly low relative to the general level of assessments in the town as a whole. The townspeople must recognize that this type of correction has recently accounted for a very significant increase in our local tax base, but the correction has now largely been made. We simply cannot count over the immediate future in a continuance of the rapid increase of our tax base which we have had in the recent past.

In 1966 the combined town, county and school tax rate was \$27.60 per thousand. The rate in the previous year, adjusted to a comparable one hundred percent valuation basis, was \$23.80, so that the increase was 16 percent. Our Town must grow and it must provide for its future. But we believe it must strive to do so in an orderly and programmed manner. We are all concerned in the enterprise of running our local government together. If we can run it well and still keep our tax rate relatively low, it will be more advantageous to our local business firms to add to their plant from time to time, and our community will continue to attract retirement couples who pay our real estate taxes, often contribute dividend and interest tax income to us, and impose few costs upon us. The taxes paid by these taxpayers are crucially important to every one of us for they meet an important part of the expenses of our local government. If our local taxes increase to the degree that industries in town hold off on expansion, curtail their operations, or build plants elsewhere, or if outsiders should no longer wish to settle in Hopkinton, then sales of our local real estate would slow down and at length our property values would commence to decline. Suddenly, we could find ourselves caught in a vicious circle

with the Selectmen forced to reduce assessments in recognition of declining values which in turn would compel yet higher tax rates to raise the same amount of money from a shrinking tax base. The value of our property would decline and the cost of owning it would increase. Surely this is a situation we must not permit ourselves to drift into.

The reassessment project was the most important task undertaken by the Selectmen last year, but there were a good many other matters which we dealt with that should be reported here. Pursuant to vote of the 1966 Town Meeting, the Selectmen retained the engineering firm of Anderson-Nichols & Co., Inc., which has local offices in Concord, to develop plans to eliminate pollution of the Contoocook River from sources for which the town is, or may be claimed to be, responsible. Although the extent of such local contamination appears to be comparatively slight, the preliminary proposal of these consultants contemplated development of a complete sewerage system to serve throughout the whole of Contoocook Village Fire Precinct at a total cost of about \$1,500,000, with the local share about \$900,000. The Selectmen directed that this project be reconsidered by the consultants and an initial limited alternative be presented which would be designed solely to meet our strictly legal obligations resulting from the State's classification of the River. (This classification is B-1 which requires that the waters be suitable for bathing and, after treatment, for water supply.) Our consultants have agreed to do this, but the entire project is presently deferred pending contribution by the Federal government of the advance of funds under which the preliminary report and plans are to be prepared for us.

Work on the new two-lane bridge over the Blackwater River, which was authorized by the last Town Meeting and which will replace the former one-lane

span, is now well along. The new bridge is being built as a State Bridge-Aid project under which the Town contributes sixty percent of the cost and the State forty percent. The State provides all necessary engineering services and supervises construction. When bids were received, it was a pleasant surprise to find the low bid well within the State's estimate. Since the Town had provided some advance financing which is available to apply against the cost of the project, the result is that our entire share of the cost will be paid off next year. This is an important improvement from the standpoint of safety in our road system, and it will be good to have it completed and paid for so promptly.

Last summer on the basis of plans prepared by John Sullivan, Architect, the Selectmen awarded the construction contract for a new fire station in Hopkinton Village to Leon Brousseau, Inc. of Manchester for a base bid of \$25,687. As of January 18, 1967, the Selectmen accepted the building as substantially complete. It is a basic brick and block building with space available ultimately for four engines. The building is located directly on the Main Street so that equipment kept there has immediate access to main roads leading throughout the Town.

Last year's budget included an item of \$2,000 for acquisition of land behind Columbia Hall and its improvement as a parking area for the fire department. At the present time the Town property line is almost beneath the eaves of our building. In the summer the brush in this area grows up very thick and remains uncut so that in dry seasons there has been a real fire hazard to the building itself. Unfortunately, although representatives of the Contoocook Methodist Church have been very cooperative in undertaking to make available to the Town a right-of-way across land owned by the Church from Maple Street to the rear of Columbia Hall, the Selectmen were unable to make any

progress at all in negotiating for an agreement with the landowner to make the land in the rear of the hall available to the Town. Since we feel the project is an important one, we have commenced lay-out proceedings for its acquisition with the hope that this improvement may be completed early in the spring.

A rather frustrating problem during 1966 has been posed by the State Junk Car statute. Before trying to compel compliance with this law, the Selectmen thought it only reasonable to offer people an inexpensive and convenient way to dispose of their offending vehicles. Accordingly, we arranged with a junk car dealer to pick up and remove groups of cars which we might be able to have assembled at convenient locations in town (where they could be burned out prior to removal). Unfortunately, while the local project of moving the cars to disposal areas was in process, the junk car dealer became seriously ill and had to discontinue his business for quite a period of time. The project remains incomplete, but we plan to resume it with the same or a different dealer in the spring. Meanwhile, there has perhaps been some improvement as a result of the clean-up accomplished to date.

Last fall the Selectmen appointed a Committee to consider the question of possible enlargement of the floor space area in the Town Hall auditorium. Unfortunately, other more pressing issues, which have preempted the Selectmen's time, delayed the work of this Committee. At its recommendation, we have made some changes this year in the lay-out of the polling area. We hope that this will reduce confusion during meetings in the aisles leading to and from this area and increase the efficiency of use of the entire auditorium. This Committee will continue its investigations after this year's town meeting and will submit its recommendations next year. We are grateful to Alfred Chandler, Arthur Lawson, Thomas Astles, Mildred Holmes, Philip Dunlap and Charles Wetterer who are serving on it.

The budget for next year contemplates a total amount to be raised by taxes for Town purposes of \$66,021 as compared with \$63,335 last year. Unlike last year's budget, which included such items as the expenses of the proposed reassessment project, the financing of the Blackwater Bridge and the Contoocook River Pollution study, most of the items in this year's budget are for routine and familiar purposes. Where they involve increases, they largely reflect the effect of higher prices. Items which perhaps should be called to attention, however, are a small increase proposed in town officers' salaries, an increase in the police budget reflecting the adding of a second full-time man, an increase in the health budget due to various causes which include the unavoidable expense of the purchase of a replacement for the nurse's car, and an increase in the sidewalk budget to permit some essential maintenance as well as a small amount of new construction.

We are glad to be able to record here the deep appreciation and affection of the entire Town to Frank M. Kimball, who for 21 years was a loyal and devoted member of the Board of Selectmen, and whose service terminated in March of 1966. His contribution by work and by example was great, indeed.

We also wish here to express our personal appreciation for the cheerful and loyal help which the Selectmen receive throughout the year from Townspeople too many in number to name, both Town officers and members of Town Departments and agencies, as well as others who have neither title nor position, but all of whom make it a privilege as well as a pleasure for us to do whatever we are able to help all of you make Hopkinton a well-run town.

## LOG OF THE HOPKINTON FIRE DEPARTMENT

November 1, 1965 to October 31, 1966

The Department made 49 runs for fire or assistance, an increase of 13 over the previous year:

- 9 Buildings
- 7 Grass
- 6 Brush, one burning with a permit
- 4 Chimneys
- 3 Cars
- 2 Electrical short circuits
- 2 Animals rescued
- 2 Foods burning
- 2 Stood by at Kingsbury & Davis Plant while work on sprinkler system was accomplished
- 1 Report of smoke from house, found owner starting his furnace
- 1 Town dump
- 1 Flooded oil burner
- 1 Stood by while Hoague & Sprague Corp. burned their dump
- 1 Car burning in junk yard
- 1 Call for burning manure pile, found only steam
- 1 Tree burning accross wires
- 1 Extracated housewife's fingers from electric mixer
- 1 Call to Hopkinton High School for leaking propane gas; purged and ventilated
- 1 Mutual aid call to Warner
- 2 Mutual aid calls to Concord

Held fire drills, emptying High School in 1 minute, 30 seconds. The Maple Street School was emptied in 1 minute, 10 seconds and the Harold Martin School in 20 seconds.

Stood by both stations on Halloween.

Participated in Fire Prevention Parade in Concord.

A total of 392 men used 27 booster lines, laid 6250 feet on 1½" hose and 3500 ft. of 2½" hose, as well as countless back pumps, ladders and other tools.

The ambulance made 68 runs, including 4 calls for the resuscitator, an increase of 27 over last year.

Respectfully submitted,

LESLIE C. TOWNES,

## HOPKINTON VILLAGE PRECINCT REPORT OF PRECINCT COMMISSIONERS

The operation of the Water Department continues to be the biggest item of Precinct business. This Department, which operates an independent, self-supporting operation, the expenses of which are borne exclusively by its customers in their water bills, reported total assets at the end of 1966 of \$88,574 with a net Precinct equity of \$16,495. Although its rate structure has necessarily been high because of the heavy expense involved in creating a virtually new public water supply system for the relatively small number of subscribers whom the Department initially served, the Department still has been able to generate a slight net income each year since it was created. Last year this income amounted to \$841. Taken together with depreciation accruals, it substantially covered requirements for payments on long term debt.

The Water Board was particularly encouraged during the year to receive several applications for service from new customers. One such application which gave rise to some technical difficulties was from Stewart Nelson for service to an area in the Precinct southerly of Interstate Highway No. 93 where he proposed to commence a small real estate development. This raised the question as to how to install a main across the interstate highway and further, even if a way could be found to do this, there was the question whether our system would provide sufficient pressure to serve an area at the elevation which Mr. Nelson proposed to develop. Fortunately, with the cooperation of the State Highway Department and of the Harris family on the South Road, who are Water Department customers, we were granted permission to pass a Precinct water pipe through a sleeve which the Highway Department had provided for the Harris house at the time the highway was built to preserve a

connection to this residence with an old spring which it formerly used. And our engineering consultants were able to prescribe specifications for supply mains which they assured us would permit satisfactory service to the area involved. These lines were installed and thus, this new area is presently served by our Precinct water system.

Another important main extension which was completed during 1966 was easterly along the Main Street as far as the new Town fire station. The distance involved for this project was such that it could not have been financed on an economical basis at rates comparable with the existing rate structure for other Water Department customers. Because of the importance of the fire house to the Precinct, at the 1966 Precinct meeting it was voted that the Precinct taxpayers generally should make a contribution toward the cost of this main, and \$900 was raised and appropriated for the purpose. The main is now completed and installed, and in addition to the new fire station, it also serves the Raymond Proctor house opposite the Horseshoe Tavern.

Still a third main extension during 1966 was one installed from the northerly terminus of our existing line on the Briar Hill Road to the Charles Van Rensselaer property. The addition of these premises, two new customers on the Main Road, three guaranteed accounts in the Stewart Nelson Irish Hill Road development and one additional customer along our existing Briar Hill Road main account for a net increase of seven in the number of our customer accounts in one year. This is a substantial growth when it is recognized that our original number of accounts was slightly less than fifty. Even though some new investment has been required to serve these new customers, the result is certainly a strengthening of the financial position of the Department.

Last year the Precinct made a contribution of \$900 in aid of construction to the Water Department to help

to finance the Water Main extension to the new fire station. The total cost of this extension turned out to be \$2,642, so that the regular Water Department customers took care of financing \$1,742 of this amount. Since the new line has only the Town Fire Station and one private home attached as customers, the Precinct Commissioners have recommended an additional contribution this year of \$500 toward the cost of this main. This will reduce the net investment of the Water Department in the facility to \$1,142, an amount which can be comfortably amortized from revenues which will be produced from customers along the extension.

The long-run project for provision of elevated storage with water mains and hydrants throughout the entire Precinct has been deferred pending the completion of various forms and applications to be filed with appropriate federal authorities. The availability of federal aid for a project such as we have contemplated, under existing federal statutes is not clear, and in any case it appears that all monies heretofore appropriated have long since been committed. Nevertheless, the goal remains before us, and the progress of the Water Department to date gives ground to believe that we shall indeed one day attain it.

Street lighting continues to account for the greater part of the regular Precinct budget, exclusive of the Water Department. Recently, Public Service Company has suggested to us that we shift over to a more modern type of street lamp. Unfortunately, the cost involved would increase our annual lighting bill very substantially, and the budget submitted does not contemplate such a change.

In the Spring of 1965 the Board of Adjustment granted a variance directing that a building permit be issued for an expansion of the Cracker Barrel store. Although this decision was reaffirmed by the Board after a rehear-

ing, the Board's decision was appealed to the Superior Court. The initial appeal was ordered dismissed on procedural grounds, and this decision was affirmed in the Supreme Court. After the Supreme Court decision, the complaining landowner moved to commence proceedings anew in the Superior Court, and although this motion in turn was dismissed, the Petitioner has again indicated an intent to carry the issue to the Supreme Court. The Commissioners have felt that the expanded facility would be useful to the community, that the traffic pattern around the store building would be made safer, and that the Precinct would benefit by additional tax base which the addition would provide. We are hopeful, therefore, that the litigation phase of this matter will be concluded soon, and that an enlarged and improved Cracker Barrel store may be available this summer.

During 1966 Stewart Nelson undertook the beginning of a small real estate development in the Precinct on the Irish Hill Road southerly of Interstate Highway No. 89. Although he completed only one house during 1966, it being the home presently owned and occupied by Robert Soucy, the Commissioners understand that he plans to continue this project with the construction of one or two more homes in this area during 1967. We welcome this activity and the enhancement of the Precinct tax base which it involves.

## REPORT OF THE POLICE DEPARTMENT

Many of you have read that crime is increasing across the Nation, and the State of New Hampshire has not been exempt from the trend. Through continual patrols at random hours of the day and night, Hopkinton has had less than its share of major crimes. Surrounding towns have been hit hard by breaking and entering, mainly of unoccupied dwellings. Our town has escaped much of this.

While the number of criminal court cases handled during 1966 nearly doubled, most of the cases were for relatively minor crimes. Motor vehicle cases decreased in 1966, and I like to think the decrease was due in part to the patrols and to preventive law enforcement. Youth problems continue, though many of the problems originate in other towns.

The town police cruiser travelled 40,457 miles during 1966, covering 106 miles of town roads and 40 miles of State highway. Officers checked more than 150 seasonal camps, and 170 unoccupied dwellings. More than 200 hours were spent on late-night patrols, checking back roads, potentially suspicious cars and vacant houses.

The 20-member crowd-control squad, or auxiliary police group, held six training sessions during 1966. The auxiliary police rescue squad was formed in cooperation with Civil Defense last June, and has held training sessions twice a month. The squad has been called to accidents, a fire and a drowning since it was formed.

Two officers attended three professional courses at St. Anselm's College on criminal investigation and criminal law. Five officers attended a night school run by the State Police in Hillsboro. Chief Daniels attended an FBI training school in Boston, and classes on narcotics in Manchester.

Calls received on the 24-hour Blue Telephone network have nearly doubled during the past year. We again urge residents to call the Blue Phone when service is needed, or to report curious or suspicious happenings. We would rather be called, and not be needed, than to become involved in something significant too late.

During 1967, because of residential growth of the town and the increase in calls from citizens requiring investigation, I recommend that a second full-time officer be added to the department. This man would expand the night coverage started last summer with a full-time summer officer, and would eliminate some of the time spent by our part-time officers. This second man would begin his duties in the spring, after town meeting.

Nearly half of the calls from citizens are received at night. The additional officer would provide full professional police service to the town during the evening and night hours. Another man will help us to improve contact with youth of the town, and to expand the preventive law enforcement patrols which I feel are so important.

May I express my thanks to the Selectmen, the Budget Committee, and the people of Hopkinton for their support. I earnestly pledge our continuing efforts in their behalf. And my thanks to the State Police, Concord Police and to the many citizens who have made donations of money and time to help their police department improve and grow.

RONALD D. DANIELS, JR.

REPORT OF ANNUAL TOWN MEETING  
MARCH 8TH, 1966

Meeting was called to order at 9 o'clock in the forenoon by the Moderator, Philip Dunlap. The Warrant for the meeting was read.

Prayer was offered by Rev. Jack Scott.

Article 1: The following offered by R. C. Proctor:

I nominate the following Town Officers for a term of one year and move that the Clerk be instructed to cast one ballot:

Firewards: Ernest S. Archibald, Raymond C. Proctor, Stanley L. White

Fence Viewers: Alfred N. Chandler, Roy Kimball, Gordon Mayo

Tree Warden: Kenneth Parker

Weigher: Horace T. Cayer

Sexton: Bernard G. Foster

Surveyors of Wood and Lumber: Stewart E. Astles, Angus Derry, Arthur S. Duston

Adopted in the affirmative.

Article 43: The following resolution offered by Rev.

Roy Leo: Resolved by the town of Hopkinton, in town meeting convened, that the Town accept the Cemetery Trust Funds as enumerated in the warrant. Adopted in the affirmative.

Article 44: The following resolution offered by Hilda

Conant: Resolved by the town of Hopkinton, in town meeting convened, that the Trustees of Trust Funds expend the income from the G. Everett Kelly Fund for Hopkinton Free Public Library. Adopted in the affirmative.

Article 45: The following resolution offered by Pauline D. Wilder: Resolved by the town of Hopkinton,

in town meeting convened, to authorize the Selectmen to borrow money in anticipation of the 1966 Tax Levy. Adopted in the affirmative.

Article 46: The following resolution offered by W. H. Norton: Resolved by the town of Hopkinton, in town meeting convened, to authorize the Selectmen to distribute inventory blanks and property assessment cards on or about April 1st of the tax year. Adopted in the affirmative.

Article 47: The following resolution offered by Stanley White: Resolved by the town of Hopkinton, in town meeting convened, that the reports of Town Officers, Committees, and Trustees for the year 1965 be accepted as printed in the Town Report, errors and omissions excepted. Adopted in the affirmative.

The following was offered by Earl J. Rice: I move that the town of Hopkinton, in town meeting convened, consider action on all Articles 2 through 42 and Article 48, after one o'clock in the afternoon. Adopted in the affirmative.

At one o'clock in the afternoon, the Moderator called the meeting to order.

Article 2: The following resolution offered by Virginia Ball: Resolved by the town of Hopkinton, in town meeting convened, that the Town vote to recess this Town Meeting and reconvene at Hopkinton High School at 8 o'clock PM this date.

The following amendment was offered by Virginia:

Amend said Article by striking out the words, 'that the town vote to recess this town meeting and reconvene', and in its place add, 'that action on Article 2 through 42 and 48 be postponed until 8 PM at the Hopkinton High School on this date', so that the Article as amended shall read:

'Resolved by the town of Hopkinton, in town

meeting convened, that action be postponed on Articles 2 through 42 and 48, until 8 o'clock PM at the Hopkinton High School, on this date.' The amendment was not adopted.

Les Townes moved that a 'yes' and 'no' ballot vote be taken on the original resolution:

Yes — 165, No — 192.

The original resolution was not adopted.

## REPORT OF PLANNING BOARD

During the past year the Planning Board has considered a number of suggested modifications to the Zoning Ordinance, and has agreed on several proposed amendments. No amendments are offered at this time, however, because it is the feeling of the Board that it should first attempt to develop a comprehensive Town plan which will take into account anticipated development in the Town, so that any amendments to the Zoning Ordinance will be consistent with, and designed to promote, such a plan. The Board will be working on this matter during the coming year and expects to offer amendments to the Zoning Ordinance in 1968. Other matters which the Board has considered, and will continue to work on during the coming year, are the elimination of the deposit of sewage in the Contoocook River, and the need for the adoption of a Subdivision Control Ordinance.

Any suggestions with respect to any of these matters which anyone may have will be gratefully accepted.

Respectfully submitted,

PETER GUENTHER,  
*Chairman*

## HOPKINTON SCHOOL DISTRICT

## REPORT OF SUPERINTENDENT OF SCHOOLS

My first report to you as Superintendent of Schools will be somewhat brief for obvious reasons. However, there are some areas upon which I should like to comment because of their importance to the Community.

Perhaps the item that seems to top the list concerns itself with three aspects. The first is whether or not to become a part of the proposed Central Valley Cooperative School District. The second part of this is whether or not, in the event the Cooperative is voted down, to build a \$625,000. addition on to the High School. Finally, is the choice of doing neither of the two, and "going it as we are now." In each instance the choice to be made involves more than a dollars and cents concern. It involves education and it involves children. Good education costs money. The question, it seems, is what type of educational system do we want. Once this question is thoroughly explored, then the time comes to make a choice. Whatever the choice may be it will be one that will have a vital effect upon the Community.

Closely related to the aforementioned issues is the problem facing Hopkinton High School concerning its approval as a comprehensive high school. Presently this approval is on a provisional status subject to review in the fall. Briefly, this means that if we are to retain full status as a comprehensive high school, then additional physical facilities are necessary, there must be additional faculty and there must be an increase in the curricular offerings the school now has. Much of what is accomplished in these areas rests with the kind of choice that is made regarding Coop. and Building.

Another item of concern to the Community is the Salary Schedule proposed by a joint committee of lay persons, faculty and School Board. This schedule is one

that will enable Hopkinton to attract and retain well qualified and competent teachers. The text of this schedule appears elsewhere in this Report. Your support of this proposal is needed if we are to maintain and improve our present system of education.

It is quite obvious that Hopkinton faces the necessity of making some extremely important decisions regarding its school system. It would be my hope that whatever the outcome might be, the choice would be one that had as its basis the type of educational opportunity you wanted yours and your community's children to have.

By way of a very brief personal note I would like to express my appreciation for the cooperation I have received since assuming this position. It is sincerely appreciated.

Respectfully submitted,

DOUGLAS H. BROWN

## SALARY SCHEDULE FOR HOPKINTON SCHOOL DISTRICT

### *Statement of Policy*

Measuring the costs carefully against the future progress of the Hopkinton educational system, the happiness and well being of the teaching staff, and the welfare of the boys and girls of Hopkinton, the salary study committee agrees on the following aims and purposes:

1. To provide salary levels commensurate with the type of service and kind of preparation demanded of teachers.
2. To have a pay scale attractive enough to interest new teachers with high qualifications.
3. To make the level of salaries high enough to hold competent teachers in the profession.
4. To encourage professional growth at all levels.

### *Classifications*

The teachers of the Hopkinton Schools will be divided into five classifications according to professional preparation and experience as shown on the following schedule.

### *Basic Provisions of Salary Schedule*

All teachers will be on schedule with the signing of contracts beginning the second year after implementation of the schedule. The total cost of placing a teacher on schedule has been computed. He will proceed on schedule after receiving equal adjustment increments for the initial two years.

The school board reserves the right to withhold a teacher's increment if it is felt that his work for the

previous year does not warrant an increase. Such teachers will be notified in writing by February 1.

Upon recommendation of the Principal and the Superintendent, the School Board reserves the right to grant increments in excess or less than those provided by the salary schedule to a teacher under the following conditions.

1. When a teacher has made an outstanding contribution to the school system.
2. In order to attract or retain a teacher who possesses talents and training in areas of extreme teacher shortage and need, or where the market value calls for higher payments.
3. When economic conditions warrant the stated increments.

Teachers will be granted ten days sick or emergency leave a year for accumulative to sixty days.

Payroll deductions shall be made as requested by the teacher for dues, Blue Cross, insurance, etc.

There will be optional methods of salary payment: ten, twenty, or twenty-six payments per year.

The salaries of administrators, Supervisors, Directors, and Guidance personnel shall be set by the School Board. The Assistant Principal shall receive compensation of \$100 per school year.

The salary schedule shall be reviewed by a joint committee every two years.

Each teacher shall furnish the School Board with a transcript and credits which must be accredited by the State Board of Education. They must be placed on file with the School Board by March 1, 1967.

All transcripts which reflect additional credits should be filed immediately.

The School Board will pay extra compensation for extra curricular activities.

Of the above 47 graduates, 17 are presently attending four year colleges. Approximately 70% of the total are continuing their education. These students are attending such institutions as: Keene State College, Plymouth State College, University of New Hampshire, Husson College, Westbrook Junior College, Nichols College, New England College, New Hampshire Technical Institute, Elmira College, Champlain College, Margaret's School of Beauty, Brandeis University, King's College, Gettysburg College, Endicott Junior College, Dean Junior College, Mt. San Antonio College, and the Manpower Training Development School. Of the remaining students, 1 is doing post-graduate work, 1 is married, 5 are in the armed services, and 8 are gainfully employed.

In September of 1966 there were the following staff changes: Mrs. Jacqueline Jasinski replaced Mrs. Hilda Chandler as girls' Physical Education instructor; Mrs. Beverly Grenert replaced Mr. Alan Rannisto as a science and math instructor; Mr. Percy Wilson rejoined the staff after a year's study at Harvard; and Mrs. Donna Damelio was added to the staff to teach English and social studies.

Currently we have three divisions in basic junior high areas. On the high school level we have three divisions in English with one exception. In the required high school social studies courses we are approaching the maximum number permitted. Attention should be given to creating a third section in these areas in the near future.

This past October a team of Educators spent three days at the high school evaluating all phases of the school program. Such an evaluation is required every ten years in order to maintain membership in the New England Association of Colleges and Secondary Schools which is a regional accrediting association. In December, that association elected Hopkinton High School to continued membership. In two years, we shall be requested to file a report indicating what has been done relative to the recommendations made by the evaluating committee. This report will, in all probability, determine whether membership will be continued for the remainder of the ten year period.

Although we are faced with problems, I am certain that the electorate of Hopkinton will find a solution which will be in the best interests of the children of the town.

WILLIAM H. MILNE,
